

JUAN ESTEBAN HERNANDEZ

FULL STACK SOFTWARE ENGINEER

PROFFESIONAL PROFILE

I am a responsible, attentive, and punctual individual who is also known for being helpful, kind, and a great collaborator. As an autodidact, I enjoy studying and creating new software-related projects. I practice coding online in opensource communities and always prefer to work with others. My main objective is to continuously improve my soft skills and learn from as many professionals as possible to enhance my knowledge and skills in software development. By interacting and working with new people, I hope to gain new perspectives and insights that will allow me to expand my skill set and create better software.
